A career reward is an object that is unlocked when a Sim reaches a given level of a chosen career. Every career in The Sims 2 has its own reward object. In most of them, the reward is unlocked at level 5, but in some, it is unlocked at level 6 or level 4. Once a career reward has been unlocked, it will remain available even if the Sim leaves that career before claiming it.

Inductively coupled plasma mass spectrometry (ICP-MS) is a type of mass spectrometry that uses an inductively coupled plasma to ionize the sample. It atomizes the sample and creates atomic and small polyatomic ions, which are then detected. It is known and used for its ability to detect metals and several non-metals in liquid samples at very low concentrations.

So why is a different criteria set applied to forensics then? Brandon - Scientific laboratories are regulated! They'll give them blind tests, and if they don't correctly diagnose strep throat, or COVID, there may be an investigation or they'll check the equipment, they'll check whether the clinicians are well-trained, or doing their jobs correctly.
