In Section 4 and Section 5 we saw that there have been two main theories developed in response to

McTaggart's

Argument: The A-theory and The B-theory. Then, in

Section 6 we saw that there are two main ways of thinking about the relation between

questions of how entities are grouped into basic categories

and which of these entities exist on the most fundamental level. Ontology is sometimes referred to as the science of being and belongs to the major branch of philosophy known as metaphysics.
