Globalization, or globalisation (Commonwealth English; see spelling differences), is the process of interaction and integration among people, companies, and governments worldwide. Globalization has accelerated since the 18th century due to advances in transportation and communication technology. This increase in global interactions has caused a growth in international trade and the exchange of ...

Robert Christopher Lasch (June 1, 1932 - February 14, 1994) was an American historian, moralist, and social critic who was a history professor at the University of Rochester. Lasch sought to use history as a tool to awaken American society to the pervasiveness with which major institutions, public and private, were eroding the competence and independence of families and communities.

This article examines a story of the limits of high ambition in policy studies and policy making. It looks at the way those limits have been appreciated and how more modest ambitions have been made. The article also examines the difficulties of modest learning and reveals some of the most basic truths: policy and policy making is mostly a matter of persuasion and policy is not only about ...
